

FloorPoster Logomat™

(3mm - Low Foot Traffic)

Perfect for point of sale

FloorPoster custom mats are perfect for point of sale or branding applications where there is low foot traffic.

A multitude of colours can be printed onto the mat or a simple two colour logo can be used for maximum impact. To make the FloorPoster custom mats, a high resolution image, logo or design is printed onto the mat using accurate computer controlled sublimation printing. The mats are constructed using a smooth, felt-like polyester material top or with a laminated sheet on top and are backed with nitrile rubber which also makes up the borders.

Available only in standard size : 40x60cm - 60x90cm - 90x120cm - 90x150cm
